Treasury	149
Capital Fund Estimates — Element Details:	
Hospitals and Medical Care	155
Advanced Education	157
Environment	159

PREFACE

The Element Details provide a further breakdown of the 1988-89 Government Estimates and Capital Fund Estimates to be voted by the Legislative Assembly. While the program and sub-program levels identify the service being provided, and in some cases the beneficiaries of that service, the element level indicates how the service is delivered. An element can be a grant or a payment for those programs involving financial assistance provided by the Province, or it can be a particular organizational unit within a department. In either case, the element represents the delivery mechanism for the service specified by the program or sub-program title.

1988-89 Estimates and Comparable 1987-88 Estimates are shown for each element, with sub-totals at the sub-program, vote and department levels. The reference number shown for each element is keyed to the applicable vote number for the program or support service. For example, 3.8.15 would be the reference number for the fifteenth element in the eighth sub-program of the third vote for a particular department. The department name is always shown at the top of the page.

Instances will be noted where the sub-program or element numbering is not sequential. This indicates that, even though there is no 1988-89 or 1987-88 financial information to report, the sub-program or element number is being retained by the department for future use.

The allocation of the 1988-89 Estimates of expenditure and disbursements by element as shown in the Element Details is presented for planning purposes only and has no specific legislative or budgetary significance.
